

# Celebs with the Worst Private Jet CO<sub>2</sub> Emissions

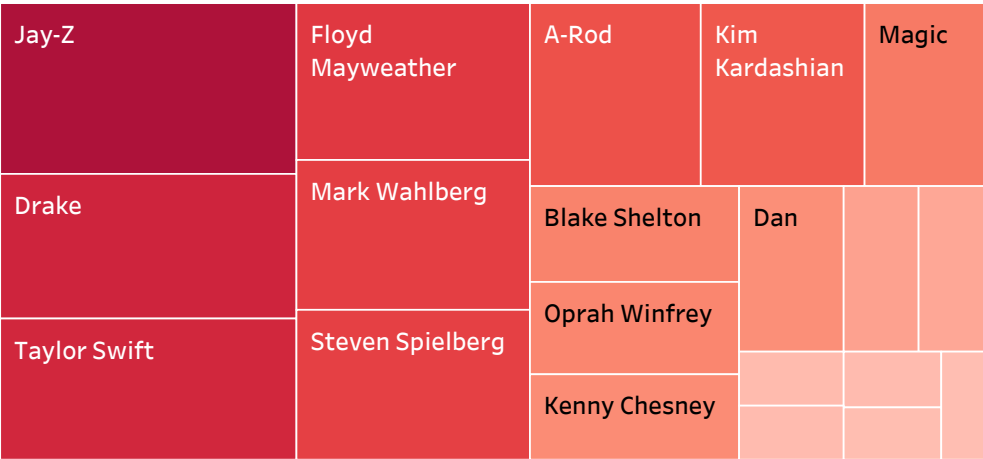

## What is 1 tonne of CO<sub>2</sub> equivalent to?

When we talk about climate change, carbon is often the focal point of the conversation. To help visualize what 1 tonne of CO<sub>2</sub> looks like, various examples are summarised below:

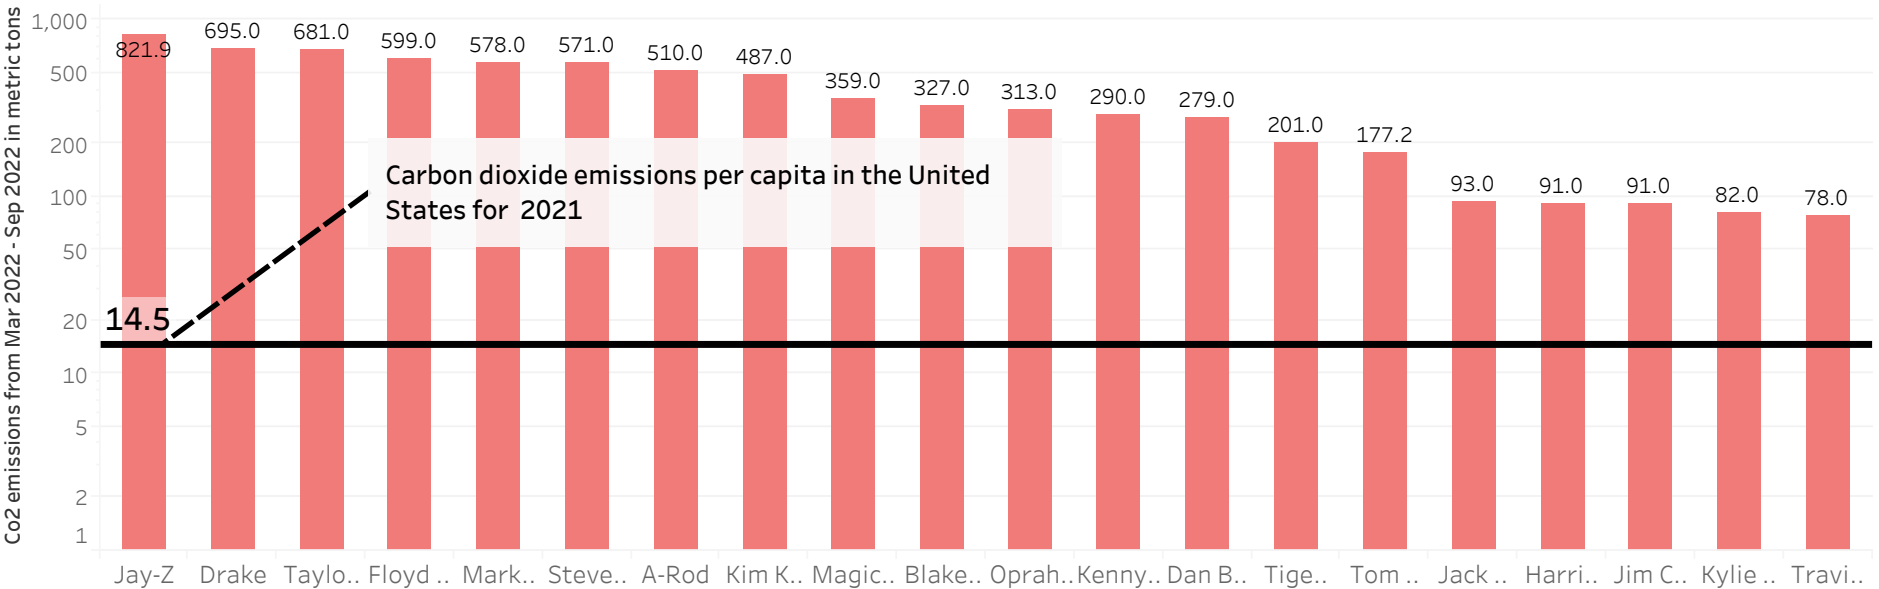

- 500 x CO<sub>2</sub> fire extinguishers
- Driving 6000km in a diesel car
- 121,643 smartphones charged

Each Box represents one of the 20 celebrities taken for our analysis, and the size of the Box represents the amount of CO<sub>2</sub> emitted by each of them from March 2022 to September 2022.
